

# Community garden lets kids learn of roots and share the wealth

*Shaking loose dirt from a bottle used in a science experiment to see what things would biodegrade, Cassidy Danz, Amber Moore, and Gabriella Danz get ready to take a look and add more dirt to the new community garden at the elementary school in Voorheesville.*

*Patting down the dirt she's just added is Tori Szesnat in the new garden at the elementary school in Voorheesville.*

*With the Helderbergs as a background, the community pitches in to build a garden behind the elementary school in Voorheesville.*
