

**Hand-In-Hand
with the
Voorheesville Public Library**

Sixth-grade students will be collecting mittens, gloves, hats, and scarves for children at St. Catherine's in Albany. St. Catherine's provides services to children and families in the area. Many of the children who attend these programs would greatly appreciate new, warm winter gear.

A Mitten Tree is presently on display at the Voorheesville Public Library. Mrs. Lobel and Mrs. Laiosa are working together to collect from the community and the Middle School population. Sixth graders will make posters to appeal to sixth, seventh, and eighth grade students and families. They will also be responsible for collecting, sorting, and packing all items collected.

This is the third year sixth graders have provided for children less fortunate during the holiday season. As part of Homebase, students learn to provide for others when we all have so much.

The collections will conclude on December 13, when Mrs. Lobel and Mrs. Laiosa will meet to unify collections from the Middle School and the Public Library.
